DISCLAIMER: This report shows the data that we had available from the FBI Crime in Louisiana Report that lists only those agencies that submitted 12-monthly reports during a calendar year. It is not exhaustive of the data that they received but some agencies do not participate in the UCR reporting so we never have a true representative crime rate for any of our parishes since so much data is missing. The agencies that are listed are those that were or had been active in the UCR Program as of 2008 but were not included in the FBI's report. They are included to show the level of data gap in parishes.

Note: The FBI warns against crime ranking. Each year when Crime in the United States is published, many entities—news media, tourism agencies, and other groups with an interest in crime in our Nation—use reported figures to compile rankings of cities and counties. These rankings, however, are merely a quick choice made by the data user; they provide no insight into the many variables that mold the crime in a particular town, city, county, state, region, or other jurisdiction. Consequently, these rankings lead to simplistic and/or incomplete analyses that often create misleading perceptions adversely affecting cities and counties, along with their residents.

Note: The population figures for this chart were taken from a FBI report of agencies ORI codes for the UCR program. The student enrollments were taken from the 2008 FBI Crime in the United States report found online at <http://www.fbi.gov/ucr/cius2008/index.html>.

Crime Rate = (number of Offenses/population) X 100,000. The Crime Rate shown is not a true representation of the parish since it is only based on the agencies that reported 12 monthly reports for their crime statistics through the UCR program to the FBI. The population totals used for the Crime Rate are only indicative of the agencies that reported, not a true parish population.

* Indicates Police Departments that report through the Sheriff's Department

***Orleans Sheriff reports through the New Orleans Police Department.

// Cities in two parishes

¹ The FBI has assigned these campuses ORI numbers attached to Bossier Parish but they are actually in Caddo Parish.

² LSU did not provide student enrollment for 2008.
